

SUMMARY

I am a result-driven & design-minded frontend developer focused on building exceptional, high-quality, beautiful interfaces with experiences I have acquired over the years

I love learning new and better ways to create seamless user experiences with clean, efficient, reusable and scalable components.

SKILLS

Front-End: Experience using NextJS, TypeScript, JavaScript, jQuery, React, Redux, React-Query, Axios, Fetch API, CSS3, SCSS, Bootstrap, Tailwind, HTML5

Tools & Methods: Git, GitHub, Heroku, Netlify, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Proactive Communication, sensitivity to deadlines.

EXPERIENCE

techbay.ng

Frontend Developer

Remote

August 2020 – present

- Developed and maintained responsive web applications using TypeScript, NextJS, React.js, HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to design and develop user-friendly, responsive web applications.
- Implemented reusable and modular components using React.js, enhancing code efficiency and maintainability.
- Integrated RESTful APIs and managed state using Redux, ensuring seamless data flow and efficient application performance.
- Utilized CSS preprocessors like SCSS to streamline styling and improve code organization.
- Collaborated with backend developers to define API requirements and ensure smooth integration between frontend and backend systems.
- Stayed up to date with React.js trends and emerging technologies, applying new tools and techniques to enhance development processes.
- Actively participated in agile development processes, including daily stand-ups, sprint planning, and retrospectives.

HNG Internship

Frontend Intern

Remote

November 2022 – December 2022

- Worked as a frontend developer in a team of engineers that built a Customer Support Solution to transcribe customer support calls and do sentiment analysis to help companies know which customer agent is doing well.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Collaborated closely with designers to translate wireframes and mockups into pixel-perfect frontend code.
- Utilized React Router for efficient navigation and routing within single-page applications.

Zuri Team Inc
Frontend Intern

Remote
May 2022 – August 2022

Led a team that built a platform where registered users can personalise their cards with images that reflect what's important to them.

Google Developers Scholarship
Web Specialist

Remote
March 2020 – August 2020

- Took courses on Pluralsight
- Completed Javascript Challenges
- A web specialist program, that has to do with building full-fledged mobile-first responsive websites, that are built with advanced JavaScript functionalities.

HIGHLIGHTED PROJECTS

[Heed](#) – Customer Support Solution to transcribe customer support calls and do sentiment analysis to help companies know which customer agent is doing well

- Built with: React, Redux, SCSS, and Python.

[Credard](#) – Led a team that built a platform where registered users can personalise their cards with images that reflect what's important to them. They can customise their cards by putting one of their photos right on their card or choosing a design from our library.

- Built with: Python(Django), Javascript, CSS, and HTML5.

EDUCATION

Jobberman
Soft Skills Training

Jan 2021 – March 2021

Skills I gained:

- Teamwork.
- Problem-solving.
- Time Management
- Emotional intelligence.
- A positive attitude and taking the initiative
